

Actress

Maya Delilah

Share a pint of beer on the weekends
I've been cavalier for no reason
Close enough to hear what I'm feeling now

Why did you just take off your glasses?
Did you see a new point of access?
Baby, how's the view I'm no actress now

Did you go
Portobello road
To get here
It's like you know
How far I'm exposed
Forever

I'm running outta pages with new lines
I'm falling off the stage to play me in real life
Come get a single take without the lights
Cause I'm running outta places
Places to hide

From you
Places to hide
From you
No actress tonight
From you
Places to hide
From you
No actress tonight

It's a different show, it's a spin off
Born to the play role watch me improve
Imma lose control wanna get lost now

Did you go
Portobello road
To get here
It's like you know
How far I'm exposed
Forever

I'm running outta pages with new lines
I'm falling off the stage to play me in real life
Come get a single take without the lights
Cause I'm running outta places
Places to hide

From you
Places to hide
From you
No actress tonight
From you
Places to hide
