

Did I Dream It All

Maya Delilah

We've gone a long way 'round
You've lost the taste you found
And now I can't sleep sound
And when the lights went down
I dreamt to dream I drown
You didn't pull me out

You watched me fall
Did I dream at all?

Feels like I can see through ya
Was I something to ya?
Feels like I never knew ya at all
Why can't we be perfect?
Am I even worth it?
I'm watching it all slip away
Into a place that tells me

I can't make you hold me
Why can't you just hold me?
Can't you keep me for yourself?
I can't make you only
Get enough where are we
Can't you keep me to yourself?

I see no other way
Too late to hesitate
A lion in the cage
And as the days go by
You must be wondering why
My dreams won't let us die

Feels like I can see through ya
Was I something to ya?
Feels like I never knew ya at all
Why can't we be perfect?
Am I even worth it?
I'm watching it all slip away
Into a place that tells me

I can't make you hold me
Why can't you just hold me?
Can't you keep me for yourself?
I can't make you only
Get enough where are we
Can't you keep me to yourself?
