

# Queen

Maya Delilah

I don't need no bed of roses  
Just show up for me when I don't notice  
Come on for when everything closes  
Opened up by your button

I don't need no diamond bracelet  
Just show off your thoughts can make it  
Tell your friends your baby girl's waiting  
'Cause you know that

I could be a queen  
I could be a queen  
But remember to act like a king, oh  
I could be a honeybee  
Honeybee, honeybee  
Don't forget, but baby, I can sting  
I could be the sun blessing your morning  
I could be the rain that fucks up your day  
I could be a queen  
I could be a queen  
Why you gotta treat me bad? Boy, oh dear  
Oh, give it to me  
Oh, give it to me

I don't need no house on the hills, just  
Some home cooked meals  
I don't need you to pay my bills  
'Cause money can't buy the way I wanna feel so

I don't think it's complicated  
Please don't think that I'm complaining  
Just don't  
Just don't leave me waiting  
'Cause you know that

I could be a queen  
I could be a queen  
But remember to act like a king, oh  
I could be a honeybee  
Honeybee, honeybee  
Don't forget, that baby I can sting  
I could be the sun blessing your morning  
I could be the rain that fucks up your day  
I could be a queen  
I could be a queen  
Why you gotta treat me bad? Boy, oh dear

Oh, give it to me  
Oh, give it to me  
Oh, give it to me
