

# Crazy Kid

**Maya Hawke**

I'm not a crazy kid, with you, I'm all grown up  
Your phone is ringing and you don't pick up  
You've been through the ringer and you've knocked yourself out  
But your dust hasn't settled and you can't settle down  
I'm grazing the clouds with my fingertips  
Talkin' too loud, I'm havin' fun with it  
And I'm thinkin' 'bout your innocence

I wanna be as tall as you can be  
You've been breakin' your back bendin' down for me  
It's cool in the shade of your shadow divine  
Now the sun's on my face and it's burning my eyes  
And I'm runnin' in place, now I'm fallin' behind  
It's cool in the shade of your shadow divine

I never told you one true thing  
I let you believe I'd been alone all spring  
But our voices quivered and we took a deep breath  
Like we got somethin' heavy off of our chest  
I wanted everything mine to be yours too  
Including the pain of losing you  
I see you when I see your blue

Wanna be as tall as you can be  
You've been breakin' your back bendin' down for me  
It's cool in the shade of your shadow divine  
Now the sun's on my face and it's burning my eyes  
And I'm runnin' in place, now I'm fallin' behind  
It's cool in the shade of your shadow divine  
It's cool in the shade of your shadow divine

Cool in the shade, cool in the shade  
Cool in the shade  
Cool in the shade  
I glow in the dark  
You can take me apart, me apart  
I glow in the dark  
You can take me apart, me apart  
I glow in the dark (If you asked me to, I come crawling back)  
You can take me apart, me apart  
I glow in the dark (If you asked me to, I come crawling back)  
You can take me apart, me apart (Cool in the shade, cool in the shade )  
I glow in the dark (If you asked me to, I come crawling back)  
You can take me apart, me apart (Cool in the shade, cool in the shade )  
If you asked me to then I'd come crawling right back for you  
I glow in the dark  
I'd come crawling right back for you
