

Faceless Spies

MaYaN

It is as if no one cares
It is as if no one cares
Faceless spies
Messing around with our rights
It is as if no one cares

It is as if no one cares
Faceless spies
Licensed to do whatever they want
Playing the terrorist card

Holes in the wall
Run for a fall
Living a lie to survive
To dominate
And eliminate
Resist, an eye for an eye

Will we find a way out
of this swamp
You're stuck
Or don't we feel the need
Decide
We can say we have nothing to hide
Pay the price
Feel free to screen us

It is as if no one cares
It is as if no one cares
Faceless spies
Licensed to look through our eyes
It is as if no one cares
Playing the terrorist card

Holes in the wall
Run for a fall
Living a lie to survive
To dominate
And eliminate
Resist, an eye for an eye

Will we find a way out
of this swamp
You're stuck
Or don't we feel the need
Decide
We can say we have nothing to hide
Pay the price
Feel free to screen us

(The biggest enemy of freedom
is not the outer world
It's your own inertia
Your indifference)

In the eye of the law
We've got the power

But elites keep deciding for us
Exercise this world of ice
Together we'll fight deceit

Out in the dark
you cannot hide
In the back of beyond
they'll be coming after you
In the dungeons of the soul
there is room for this beast
That devours all that
reveals the truth
You've been find to survive
You've been banned for life
Just disappear
but remember that we're always near

Out in the dark
you cannot hide
Don't yield to mendacious authority
We're being led like lambs
to the slaughter of identity
We will persevere until justice prevails
