I've defeated myself
Eternally
I'll return into my pain
Silently and weak
All that I've missed
To hide myself in the dark
It must be hate without recognition
Embrace my pain

Reach out for me
I come for slaughter
Reset my mind
Till the end of time
Sway up for real
Try my pain
We can't go on here
I am undone

I've created myself
Nocturnally
I will make you share my pain
Silently and weak
All that I need
Is to step right out of the dark
It must be lies laced with devastation
Keeping me away

All I need is some recognition

The wolf is dead
Bring me his head
Colored in red
The wolf is dead
Bring me his head

Reach out for me
I come for slaughter
Reset my mind
Till the end of time
Sway up for real
I can't ignore this
We can't go on
I am undone
