

Redemption

MaYaN

An arms race
Another war
It goes on forevermore
They keep on fighting for supremacy
Don't find yourself to justify
Or remain a witness form the side-lines

Don't hesitate
We have to find a way to
Stop all this madness

Will we ever reach our goal?
Or give up & try no more
Get off your knees
And try at least

You cannot ransom your redemption
You've failed to pay
You don't want to face reality
Stuck in your old mentality
Let it be!
Open your mind there's much more to see
An arms race
Another war
Lost lives forevermore
To guarantee some future benefits

They tried to buy out their redemption
You've failed to pay
You don't want to face reality
Stuck in your old mentality

Don't want to be responsible
Always afraid to sink and lose control
Plagued by irrationality
Let it be!
Open your mind there's much more to see

Detect defects
And let the mob accept its fate
Secure effects
Convince the credulous

Control the facts
And make the mob believe in me
Avoid the traps set by our enemies!

Detect defects
And let the mob accept its fate
Secure effects
Convince the credulous

They tried to buy out their redemption
You've failed to pay
You don't want to face reality
Stuck in your old mentality

Don't want to be responsible
Always afraid to sink and lose control
Plagued by irrationality
Let it be!
Open your mind there's much more to see
