

## First Train

## Mayday Parade

I feel alone and  
I know you felt like this before  
Let's imagine we could be  
Anything and  
Anyone, well guess what, we  
Can be all of those  
Things

So let's take the first train outta here  
We'll let it take us far away

I feel alone and  
I know you felt like this before  
Let's imagine we could be  
Anything and  
Anyone, well guess what, we  
Can be all of those  
Things

So let's take the first train outta here  
We'll let it take us far away  
So don't hold on to the pain from yesterday  
We're gonna move on away, away

Be anything  
And anyone  
Yeah, we could live anywhere  
With anyone

So let's take the first train outta here  
We'll let it take us far away  
So don't hold on to the pain from yesterday  
We're gonna move on away, away
