

Got Me All Wrong

Mayday Parade

Had real big plans this weekend
And waited for this moment all summer
Dressed to the nines with the best intentions
Was doing all I can

I think we lost transmission, did I make you disappear?
You got me all wrong
Last night you left my heart on the floor
You got me all wrong
You got me
You got me wrong

You know it didn't take much to notice
It's hard to miss everything you do
Blue eyes and a sleeve of tattoos
You're glamorous and cruel

I think we lost transmission, did I make you disappear?
I had really big plans to meet you
You got me all wrong
Last night you left my heart on the floor

You got me all wrong
I swear I never meant to be cold
You got me
You got me wrong

You got me all wrong
Last night you left my heart on the floor
You got me all wrong
I swear I never meant to be cold
You got me
You got me wrong
