

Miracle

Mayday Parade

Is it safe for me to talk
About some things that were so damn hard
Just say the word
It all began with us
The fall of every simple dream
The times were hard
There was so much rain
Our lungs will up as we choked on foolish thing

Hold me close
Don't let me go
Hold me close
Like I need a miracle
Fading slow
So the story goes
Hold me close
Like I need a miracle
Like I need a miracle

Is safe to move along
And lean on everything that starts
To build it up
This hope inside of me
Like the moment you became so tall
The towers that began to fall
The sunsets I wish you could've seen

Hold me close
Don't let me go
Hold me close
Like I need a miracle
Fading slow
So the story goes
Hold me close
Like I need a miracle

Fading slow
So the story goes
Hold me close
Like I need a miracle
Like I need a miracle

Like I need a miracle

Hold me close
Don't let me go
Hold me close
Like I need a miracle
Fading slow
So the story goes
Hold me close
Like I need a miracle

Hold me close
Like I need a miracle
