

## Notice

### Mayday Parade

I wrote a song for you and then it came to life  
I was hoping you would notice

If every moment in my life  
Could be as memorable as this one  
I would never feel alone  
Ever again, I swear to God  
And I could tell you everything  
That's ever happened to me  
And every reason I don't care

But I'd still see you waiting there

I wrote a song for you and then it came to life  
I was hoping you would notice  
And I had a feeling that I'll sing for you tonight  
We're all broken and we know it

When you were falling into me  
Floating down so gracefully  
Soft and sweet and scared to bend  
Cause you might break in two again  
I know the way it ends  
At least until it all begins again  
When everyone moves on

If you're stuck you should come along

I wrote a song for you and then it came to life  
I was hoping you would notice  
And I had a feeling that I'll sing for you tonight  
We're all broken and we know it

It's just one of those days  
It's just one of those days

I wrote a song for you and then it came to life  
I was hoping you would notice  
And I had a feeling that I'll sing for you tonight  
We're all broken and we know it
