

Better Days

iMayday!

These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way
No no no
These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way
No no no

Before you run you gotta walk
Before you jump just let it drop
Before you celebrate the wins
You need a holiday for every loss
I been up and down with all of y'all
Woke up needing Tylenol
Pulling every fire alarm
Just to let you outta school
I'm zoning
Walking so light I'm floating
Rolling so tight we smoking
Went thru the desert till we
Landed back inside back in the ocean
They said that this them days
And who am I to I say they ain't?
So turn it up and let it play
I need my personal parade
What day is it

These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way
No no no
These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way
No no no
No no no
No no no
No no no
No no no

Walking round this little rock I seen so many faces
Every step I took I looked around at all these places
Memories have served me well but sometimes
They be faded
Constant elevation I forget
Who's in a daze admit it's craze
All these dreams I can't evade
I get it frayed no limits made
I concentrate like minute maid
And still I can't let go this forward motion
Got it keep it moving low key
I don't know how to slow down I'm moving

Round gotta go you know me

These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way
No no no
These my better days
Better not get in my way cuz I can't wait
For my better days
Better not get in my way

No no no
No no no
No no no
No no no

These my better days
These my better days
Better days...
