Dig It Out

¡Mayday!

Break ground on a
Not so solid surface
Rock the common turf with
Rottweillers with purpose
Moving around and now he duly get down
Draw blood and it's oozing now
My heart has been losing pounds
By the minute you play cynic like the bleeding isn't real
But the leaks that I conceal have an overwhelming feel
And it's danger
Under the ground I see saviours
Who's memories I buried with my very scary neighbours
Razors, raze the bottom line blazes
Pick and shuffle the blame
Kicking trouble for days
And I'm feeling like this bassinet is just another coffin
Heavin, coughin, reachin, often
Kicking up dust on the life I lived
You see I'm Mad Max with an axe
And I'm minus wife and kids
I'm looking for the clues that I might have missed
So if you find me in the dirt and you see I'm tryin to dig remember that

This is a dangerous time we live in
Revolutions all around
I found a dream that I was given
Down deep inside the ground
Let's, let's, let's dig it out

Put crown on her
Better better so we be on
Get a little go see me gone
I'mma let them all keep me strong
Pick it up and I'm gonna beat the pawns
Add a little bit of butter I'mma eat the fawn
I'm a illin' motherfucker with a piece of wrong
The world is on it's knees
These sane names and fame games
Get a license with the strange lane
My aims plain but ain't changed since 1983
This ain't pain but hey man
I'm trying to maintain sane
This caveman bring great fam
That's just the way it be
In a world of darkness
I'm digging for catharsis
I'm sipping on the arsenic
Just to say I'm a part of it
The media
The medium
The miniscule we make
The mediocore medicare on my mininum wage
I'm smiling but I'm not okay
I'm dialing, don't know what I'll say
I'm filing for asylum
But I'm whiling violins on that mountain plate
We walking up to take the stage

Got dirt and sand all in my face
If this here is my final play
Here's what you'll hear my tombstone say

This is a dangerous time we live in
Revolutions all around
I found a dream that I was given
Down deep inside the ground
Let's, let's, let's dig it out

This is a dangerous time we live in
