

## Drive Blind

iMayday!

Smash and Grab with speed  
Kick it up when they on they knees  
No apologies or please  
When we all tryna get a little feed  
I punch my clock and bleed  
For 8 hours of grief  
When I receive ample seeds  
I'm relieved then I leave  
This prison is perceived  
To be where I should breathe  
Be all that I can be  
And raise a family for free  
This isn't what I need  
Not ever thank you please  
My wings have all been clipped this angel isn't who he

Seems  
Chip on my shoulder size of boulders  
My heart gets colder every leaf I'm turning over  
I've brazed the beak before we eatin' coca-cola  
Nobody's hard to reach I thought I told you  
Gotta reeeeach  
Till the end yeah the bitter ain't gotta make ends  
Gotta fight for revive no time to pretend  
In a second it could all come down a floor  
I swear I've seen it all before  
Shoe box emptied out with force  
Two cops knockin' at the door

Cover up my eyes and drive blind  
Bridge's out ahead I don't mind  
Don't look out for me cause I'm fine  
I don't need a sign to drive blind  
Drive blind, drive blind  
Bridge's out ahead I don't mind  
Don't look out for me cause I'm fine  
I don't need a sign to drive blind

Blind fold these eye lids  
To move amongst the mindless  
I'm picking' up a ice picks  
And stabbing' through your psychics  
Now, maneuver through uber haters and losers  
My boo is neighbors with Judas  
And I'm greeting all the 'truders  
With a blind eye  
I roll around the globe and fly by  
This middle mai tai drink I'm raising sky high  
To the rhythm I'm giving to get up to stand up and fight  
See, my pen is an animal type  
Waving my ink it's a magical sight

C, mon... Fling!  
Here's a rabbit out the hat  
Been workin' till the morning  
Till your bones are fuckin' snapped  
Specializing construction

I'm an architect in fact  
Tryna fortify this building before it collapses  
This shit is more than raps  
This here is deeper than what's inside your speakers  
We're all just tweakers tryna take us to your fuckin' dealers  
We're four-wheelers all terrain is out to hurt your feelings  
There's real killers in the shadows watching who's winning

Cover up my eyes and drive blind  
Bridge's out ahead I don't mind  
Don't look out for me cause I'm fine  
I don't need a sign to drive blind  
Drive blind, drive blind  
Bridge's out ahead I don't mind  
Don't look out for me cause I'm fine  
I don't need a sign to drive blind
