

# Forever New

¡Mayday!

Livin' my life under a blacklight  
Out here paying my dues  
Sometimes I lose it and don't act right  
Feelin' forever new

Livin' my life under a blacklight  
Out here paying my dues  
Sometimes I lose it and don't act right  
Feelin' forever new  
Feelin' forever new

Another night, another song  
Another message, another wrong  
Another chain too hard to break, I carry on  
The weekday war is hard, but I love gettin' down til there's blood in my palms

Faith in the wrong, acein' them all  
Traveling down to get the better set or stake in them all  
I'mma live fast, steady breakin' the laws  
Tell em to get a grip and let me chase the applause  
Nightlight on the tight like the dynamite, got 'em like  
"Man, these some all time lifers."  
We hype bout it the mic right  
But what can we say to help us to burn brighter  
Go pro so, so long  
Pick it up until the dark, like sonar  
Pen 'em and still I'm on the meal to the bogarts  
So far we broke off the sonar, they so lost  
And I'm here for my birth right, counseling  
One too many in the back of my mind  
Think too much about my life then I found it  
To make me want to jump back in the line  
This one is just another nightlife song  
Come on home and turn the nightlights on  
Waitin' for the sun to rise and I'm not nine to five lies all died in the mornin'  
Fives up for the restart, sunset, countdown, get ready, go  
Forever new, we can't reload

Livin' my life under a blacklight  
Out here paying my dues  
Sometimes I lose it and don't act right  
Feelin' forever new

Sometimes I feel like this in my blood, you know?  
Some of my earliest memories is  
Wakin' up once a week  
And hearin' the party goin' on downstairs

Black lights, white lines, high times, red eyes  
Clean whips, dirty minds, bad girls, new designs  
Tough city, tougher life

Callin' death, soul on ice  
Chest burnin' but it feel nice  
Sneakin' not to seek out the night  
And I'm sorry ma  
Cause the downtown lights are never off  
Hypnotized by the evening demons  
Feel the neon lights are turned on  
Hear the DJ rotate my song  
Never thought set would break a dawn  
Feelin' like modern day out-laws  
Getting paid well for singing our songs  
Praise the Lord, thank the stars  
In tape we trust, rush the music cards  
Watch us work hard and earn that rent  
Tryin' to make that boy blow his whole paycheck  
And I feel at home with the freaks and wierdos  
In the club surrounded by people  
Some are scared to say that we're evil  
But it's cool

Livin' my life under a blacklight  
Out here paying my dues  
Sometimes I lose it and don't act right  
Feelin' forever new

These are the days of the road (traveling at night)  
Spread my wings as I ease through the door (I reside under this blacklight)

Wake up, whole new city, gotta shake up  
Time takes up  
Bout ten shows to get the kinks out  
We bake out then we drink up  
We go hard to get cake up  
Caution sign, this tape up  
Down around about an hour to drive  
I got a limited time I get it dranked up  
When I'm fucked up I don't act right  
Temptation, I just might  
Hard to fight when she is the type to be actin' out at those black lights  
But I'm leaving now, ready tomorrow, twice a year and I'm comin' back  
Sinister Avenue, lovin' the party  
Keepin' it low with no strings attached  
(I'm livin') Livin' every day like my last  
(I'm livin') All work, no play, no rest  
(I'm givin') Givin' every little bit a part of me  
(I'm givin') Last time for me to go and last breath  
(Yeah) Forever my journey, message suggests  
100 dog on top let's rep YEP
