

## Habitual Line Stepper

!Mayday!

Shouldn't have crossed that line  
Shouldn't have agreed to go out that night  
We did some things we knew were wrong but felt so right  
Yeah it felt so right  
But now we've got a little secret; Yeah, a little secret  
I can't believe we just did what I think we just did  
Our little secret; yeah our little secret baby  
Let's hope we keep it like we both promised

I won't tell if you won't tell; Something was in the air  
Was it the drinks? Was it the drugs? Was it the atmosphere?  
I wasn't thinking clear when we both disappeared  
Ditched our friends; made a dash for the exit in the rear  
Full moon; speakers boomed; while we went back to your room  
Exactly what ensued is between me and you  
Bad move; shit was doomed; should have stayed back in the green room  
But I could not refuse; so now you are my muse

Shouldn't have crossed that line  
Shouldn't have agreed to go out that night  
We did some things we knew were wrong but felt so right  
Yeah it felt so right  
But now we've got a little secret; Yeah, a little secret  
I can't believe we just did what I think we just did  
Our little secret; yeah our little secret baby  
Let's hope we keep it like we both promised

It started as a fling; a simple little thing  
I should have known that look inside your eyes would bring me pain  
Now I'm caught up in this little web that we have spun  
Tryin' to break us free but it seems that it's only begun  
That little skirt; you little flirt; you knew that I would slip  
And fall into your unadulterated little grip  
My lady's faith is golden; I can't lose a little bit  
So let's keep this hear between us  
So me, I'll be singin' this

Shouldn't have crossed that line  
Shouldn't have agreed to go out that night  
We did some things we knew were wrong but felt so right  
Yeah it felt so right  
But now we've got a little secret; Yeah, a little secret  
I can't believe we just did what I think we just did  
Our little secret; yeah our little secret baby  
Let's hope we keep it like we both promised

No remorse; No regret; Only got one life to live  
Didn't think; Just reacted to the signals sent  
You're a friend 'til the end; What we did just leave it then  
No harm; no foul; We will always be down  
But it's all easier said then it is done  
[?] when I can like a felon  
I'm addicted to risk and I can't get enough of the essence  
Oh well, C'est la vie; What I want won't come free  
And that's what she said to me: Love me, or let me be
