

Hard To Leave

iMayday!

Hard to leave
Hard to leave

When it's all done, tell me will I know?
See I've been waiting outside, but I just can't go
I think it's just about time that I make my move
But before I walk out the door

You make it hard to leave (Hard to leave)
Yeah I know it's easy to see (Hard to leave)
You make it hard to leave (Hard to leave)
Yeah, take it easy on me (Hard to leave)
Woah, you make it hard to leave

Can't get away
Come back around like hand-me-downs
I want you everyday
But I, can't have you 'round this part of town
You know you why I can't
And I, can't fathom how we cat-and-mouse
When all we do is play
Yeah all we do is play
Better go over the rules again first chance we get
Got wounds that spoil like mattress sets
So even if this as good as it gets
I'll be cool with just what might come next
This for the nights outside your house
Parked with the lights off, talking for hours
For the times we'd arrive, feeling unannounced
You know what this about

You make it hard to leave (Hard to leave)
Yeah I know it's easy to see (Hard to leave)
You make it hard to leave (Hard to leave)
Yeah, take it easy on me (Hard to leave)
Woah, you make it hard to leave

You make it hard to leave
Feeling like it's hard to breathe
Can't help feeling like you're harming me
Even though you keep saying that it's harmony
I took a six-foot walk off a six-inch ledge
I ain't been the same kid since
Mama don't know me, friends just bitch
That I'm locked down tight in a toxic pinch
I pinch myself to make sure I'm not dreaming
'Cause I just see all the right reasons
To stay with you here, for life even
I been outside, quite freezing
I'm not try'na go back down to start over
See I'm open now to find closure
Let me stay one night we'll talk sober 'cause

You make it hard to leave (Hard to leave)
Yeah I know it's easy to see (Hard to leave)
You make it hard to leave (Hard to leave)
Yeah, take it easy on me (Hard to leave)

Woah, you make it hard to leave

When it's all done, tell me will I know?
See I've been waiting outside, but I just can't go
I think it's just about time that I make my move
But before I walk out the door

You make it hard to leave (Hard to leave)
Yeah I know it's easy to see (Hard to leave)
You make it hard to leave (Hard to leave)
Yeah, take it easy on me (Hard to leave)
Woah, you make it hard to leave

Hard to leave
Hard to leave
Hard to leave
Hard to leave
