

# Have Someone

¡Mayday!

You make me want to

Get down, break it down, break my rules  
Right down, want it now, make my moves  
Good vibe and I like that (like that)  
I'm surprised that I'm right back (right back)  
Caught up in this moment  
In a G low key so cold with it  
It is so lit  
Make a nigga want to own it  
And we can both spit  
Go get into some mo' shit  
What you really want?  
Where you really come from?  
Not just anyone  
You can get it done huh?  
You be killing 'em, give me give me something  
God I'm getting sprung when I'm in the function  
You got me loose  
You got truth  
Put that to use  
Who got the juice?  
Let me find out you've got wings  
Make man want to pick out rings  
You got themes  
Un'ttached without strings  
Hypnotizing  
Fantasizing  
Unsurprising  
My nature rising  
Now you go un-cached  
You go unmatched  
Can't imagine that you won a once match  
You're not the average  
You've got the magic  
I've got to have it  
Aaaaaah

You make me want to  
Have someone  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to  
Have me some  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to

Call in sick and not do a thing today

Change plans, pretend it's a holiday  
Do dumb shit and act irresponsibly  
Wake up late and roll up another J  
Cancel meetings and ditch all my dates  
Ignore all calls and forward all names  
Do what you want, feed all your tastes  
That's how I feel when I feel your waist  
Bet you were a raver girl  
Ever since you've been in every verse  
Should've known it was a red alert  
'Cause now I'm letting you affect my work  
To say I'll probably end up getting hurt  
But I love the perks  
And how the lines are blurred  
When it comes to this I'm like a connoisseur  
So I'm taking my time now for what it's worth  
And do what I prefer  
Whatever might occur  
So  
I'm ahead of your direction  
Get a little in tune with your essence  
Let you do what you do and not stress it  
Go and get in the groove that's infectious  
This another now go and get a summer run  
Give it to you in your city when I want to come  
Baby you know that it's litty hoe we're never done  
You know what you make me do?

You make me want to  
Have someone  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to  
Have me some  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to

Break the rules  
And change the mood  
I've been all around the planet but I stay with you  
You've got the flavour of Rome, you move like Venice  
Solid ground never did suit you did it?  
I feel it in the pit of my soul  
But I hide it and play like I never did know  
You're a modern day Helen  
I better tell 'em  
I got a woman that'd make 'em all jealous  
That look in your eye  
Has got the other ones looking through a crooked design  
You whispered your name and I took it to mind  
'Cause who would want to forget such a woman so fine  
I had plans this evening  
But I cancelled 'em all for a candid reason  
Trying to learn your body, mind and your seasoning

Trying to find a way to get a gram of Eden  
You make me wanna  
Run, hop, skip, jump, make you my baby momma  
Have a couple kids and get crazy I'mma  
Talk out a line when I blame it on the  
Alcohol  
See I gave you a line but I doubt you'll call  
If I wasted your time that's my bad and all  
I just had to come and let you know

You make me want to  
Have someone  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to  
Have me some  
If you're looking for me  
You can find me  
I'll be right here at the function trying to  
Grab someone  
Vibe is so hypnotic  
That I want to push up on it  
Yeah you make me want to
