

# Into the Night

¡Mayday!

Into the night I go, and you ain't got to roll with me  
Saying into night I go, I look at you and I just wanna leave  
Into the night I go, and you ain't gotta roll with me  
Saying Into the night I go, I look at you it make me wanna leave  
Leave, leave

Get a grip now  
I've been in this room for so long  
That I'm starting to feel lost in the mix now  
Somebody come and get me quick now  
Walls closing in and I'm crawling my skin  
Now I've gone to the wind, drink calling again  
You don't wanna stop me from just hauling it in  
So I'm gone  
In the night and I've been trying to belong  
But that look up in your eyes says it's wrong  
So I better get it going  
While I'm out leave me 'lone  
Shit this is gon' be better for us all  
Hard times got us looking for the far side  
What a night to finally see the single star line  
I need some piece like you but it's hard to find  
Like a seat buried underneath the borderline  
Oh  
You say that you feel a little piece of you just dying when I go  
But I got things to find and I've been out here looking for them on the road  
Now look me in the eye and tell me you don't feel a little bit cold  
No no, well  
My GPS ain't got an address yet  
Driving on the highway with the gas all pressed  
I'm a bastard yes  
But I can't just let  
All these demons in my chest get they last things yet  
So I be seeing you when morning does  
We can talk it over grub and a morning buzz  
Hold it down for tonight in the order of  
Everything we built together that I sort of love

Into the night I go, and you ain't got to roll with me  
Saying into night I go, I look at you and I just wanna leave  
Into the night I go, and you ain't gotta roll with me  
Saying Into the night I go, I look at you it make me wanna leave  
Leave, leave

I can't be here anymore  
Isn't this what we wanted?  
Spotlight for the artist  
Long nights being honest  
Some said 'til I'm gone  
Trying to bring something home  
Trapdoor in the office  
No pass for the login  
No signs that I'm stopping  
Is it cheating on you if I'm in love with the process  
Is my daddy acting lawless?  
Got to hold a crib down for my momma that's regardless  
Yeah I got to keep 'em on

Intoxicated from the job  
They want to know what's in the sauce  
Love to hear the tails of the rise and the falls  
My God!  
Is your fam not nuclear?  
Is son not used to you?  
Are your angels keeping you from Lucifer?  
Do you pray to the universe?  
Tell me, who's your God?  
Cause I'll try to get it right now  
But I'll do it when you sleeping in a night gown  
Like a lycan I'm unchained with the right howl  
Maybe I'm going insane from this lifestyle  
I don't know how I'mma grind down  
I'm addicted to the lights blinking downtown  
Not tired it's too hard for me to lie down  
I'mma speed 'til the tourbus wipeout  
And that's it  
I'mma live under the moon  
Hustle hard with the freaks and consume  
Twilight feeling everything I do  
While everything I know is too scared to die soon

Into the night I go, and you ain't got to roll with me  
Saying into night I go, I look at you and I just wanna leave  
Into the night I go, and you ain't gotta roll with me  
Saying Into the night I go, I look at you it make me wanna leave  
Leave, leave
