

Keep Em On

iMayday!

Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off

E... E... Easy come, easy go
Where's the pub? where's the dough? where's the show?
Where the things that you said would of followed?
Let me know
It's all right. It's all good. Life is short
Times are tough. Things are rough. Yeah I know
But I'm here and I'm still read to go
Before I'll let you know

Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off

Click!
We've been working down in this darkness
For so long now we can't see
The power's out in my apartment
But the bill ain't due for three weeks
Got an agent dressed up in shark skin
Swimming around my family's feet
They took me for all I had
You see I've got nothing left to leave
And so I sleep
Give me a round
In a village where the little bit of can you get down?
When the middle isn't lit up and it's dim in the sound
Dimming it now
I need another gimmick to drown
Round and round the top like northern lights
I'm a word 'em up warrior
Born to fight
Let me see just what I'm doing while I break my back
Forget the dark
Let me start
And we'll keep the brights on like...

Ca... ca... came too far, can't go back
Left it all on a hunch, mighty fast
They all left, they all said it can't last
Now they kiss my ass
It's my turn. It's my time. It's my life
Keep your props. Keep your box. Keep your advice
So shut up, stop in, enjoy the ride
Cause I'm back to drive

Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
Let's keep the lights on. Don't turn 'em off
