

# Play Pretend

¡Mayday!

Let's pretend  
Like the things I said to you were never said  
Like the beast that lives inside us wasn't fed  
As if we really mean it this time, let's pretend  
Let's play pretend, oh

Seems so serious to me  
Found a place where we can be alone sometimes  
Place outside of your zone  
I take you fore it's gone  
I know, I know we need to go  
Seems so fucking real to me  
Found a hole and dug up this convenient fantasy  
Brand new place of my own to be alone  
For once be who we want, so just for now

Let's pretend  
Like the things I said to you were never said  
Like the beast that lives inside us wasn't fed  
As if we really mean it this time, let's pretend  
Let's play pretend, oh

Play pretend  
Seems like you're not what you seem  
Or is it that I can't see things for what they truly are?  
Pretending so damn long  
I don't know what's real  
I hope, I hope I break the code  
Maybe it's just make believe  
Or maybe I'm just crazy, and you think it's plain to see  
The show's run all night long, too long  
It's too much, too much to take for my own sake  
I can't pretend

Let's pretend  
Like the things I said to you were never said  
Like the beast that lives inside us wasn't fed  
As if we really mean it this time, let's pretend  
Let's play pretend, oh

It's as real as you want  
Nothing's real, nothings gone  
Make believe it's not gone

Must be a skitso  
I paint more than one of myselfs in a picture  
Reality hits ya, they all try and to fix ya  
But ain't nothin' broke I hope nobody misses ya  
It's a difficult life  
In a world cold as ice what a beautiful heist  
They could took with no fight, nothin' ever suffice  
When it come down to the odds, man I blew off advice  
Even from angels and gods, straight jack it to reach  
Nurse scatch that I'm weak  
Please kick up the dose to the point I can't even breathe  
Tryin' to quiet the beast or release numb but fiends  
At night in the scene

I sink deep on my knees, to be someone I'm not  
For moments it seems  
I reach for the pills, like a kid in a candy shop  
Yeah I said that I stop, but I got fear of rejection  
I put up my shield for my own protection

Let's pretend  
Like the things I said to you were never said  
Like the beast that lives inside us wasn't fed  
As if we really mean it this time, let's pretend  
Let's play pretend, oh
