

# Run Up

!Mayday!

When the sun goes down, the hustlers gon' come up  
Watch your step or they'll steal your whole summer  
Don't go around there wearing the wrong color  
Cause if you do, you might just get run up (run up)  
You might just get run up (run up)  
They'll steal your whole summer (run up)  
You might just get run up (run up)  
You might just get run up (run up)  
Watch your back

Get to running in your den  
This is no game, no shame, no brains, no fame safe for the hung  
They be out here wilin' violent fucking on y'all for the fun  
And these streets go silent all of a sudden nobody seen men  
And your body goes numb, 3, 2, 1  
They been out here now looking for your chains to grab  
You resist and you find that your brains detached  
They got a 100 motherfuckers all aimin' at ya  
With a claim to capture, all maniacs on these streets  
Now hop off the boat in Pogo looking like me  
And the wools ain't never passed up on the sheep so

When the sun goes down, the hustlers gon' come up  
Watch your step or they'll steal your whole summer  
Don't go around there wearing the wrong color  
Cause if you do, you might just get run up (run up)  
You might just get run up (run up)  
They'll steal your whole summer (run up)  
You might just get run up (run up)  
You might just get run up (run up)  
Watch your back

Better know what part of town you're in  
When the men in the mood begin to grin  
Better have a good reason that you're in  
Leaving when the street lights begin to blink  
See the writing on the wall like what you think  
And the music in the distance ain't ya thing  
Better get what you came for  
When the same doors you came through will lock your ass out  
No exceptions, no reception, one way in and just one exit  
Once that taboo was so infectious  
But if I was you I'd change directions  
Because if they do start with questions  
Then go showing your mentions  
Now they ain't gon' know where to send it  
When them boys 'round out but unexpected  
Nah they won't know

When the sun goes down, the hustlers gon' come up  
Watch your step or they'll steal your whole summer  
Don't go around there wearing the wrong color  
Cause if you do, you might just get run up (run up)  
You might just get run up (run up)  
They'll steal your whole summer (run up)  
You might just get run up (run up)  
You might just get run up (run up)

Watch your back

Some are feeling like Saigon  
My city give you lead to try on  
If you lightweight like Nylon  
Get a one-way ticket to your Zion  
Babylon, either one son  
You don't wanna be defeated when the gun come  
Get your lungs done, till your plum numb  
It's like a 12 with a 30 round drum drum  
What is the weather in K City? (Heated)  
What do you say when you way gritty? (Eat it)  
The prevailing bullets, you got the pedal and couldn't  
We by the devil and hooded when they pity (feed It)  
Chop chop till your Glock stops  
Get your box locked when the sun up  
3 to block knots like I'm Basquiat  
30 ought shot when they run up

When the sun goes down, the hustlers gon' come up  
Watch your step or they'll steal your whole summer  
Don't go around there wearing the wrong color  
Cause if you do, you might just get run up (run up)  
You might just get run up (run up)  
They'll steal your whole summer (run up)  
You might just get run up (run up)  
You might just get run up (run up)
