

## Tear Shit Down

!Mayday!

My homies say that I'm too jaded  
I don't give a fuck  
See thru the bullshit and I start a ruckus just for fun  
Maybe I'm faded but I'm bout to tear this club up  
We in the jungle motherfucker yea we wild ones  
Sip some of that brown stuff  
Dark skies gutter highs  
Toke some of that evergreen  
Float till I hit Cloud 9  
9 lives but a couple left  
Bucket listing double fisting  
Enjoy every sin  
You smoke too much I drink too much we so excessive  
But that's just how we always been we never did suppress it  
We Fresh outta fucks to give  
And living life like it's the one  
Tonight we going crazy cause tomorrow may just never come

We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives  
We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives

I came to break into your party I'm  
That one you know that's got the smoke and the Bacardi lime  
Had one too many but I'm truthful don't need their medicine in spoonfuls  
She's wrek less an I'm used to  
Us both acting like we too cool  
This could be my last day  
Come Put away past ways  
I been all up in the ash trays  
To Find a roach in the rat race  
You wanna burn a few  
Get close and personal  
Go too far at the bar till they ain't serving you  
You smoke too much I drink too much we so excessive  
But that's just how we always been we never did suppress it  
We Fresh outta fucks to give  
And living life like it's the one  
Tonight we going crazy cause tomorrow may just never come

We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives  
We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives

They only wanna see you rise so they can see you fall  
See it's the ones who like to talk that never got involved  
I'd rather party with my brothers than to mess with y'all

Tearing it down until the sun come up and it's tomorrow

Never went home never got sleep  
Never shut down my vibe  
I'mma keep it on and rocking there's no option We alive  
I'mma party on the moon until it falls onto the ground  
See I came to do my thing now let come and tear it down

We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives  
We came to tear shit down tonight  
Do what we want this our life  
We came to tear shit down tonight  
Like it's the last day of our lives
