

# Technology

iMayday!

Even with all this technology  
My friends still find it hard to talk to me  
I'm out of reach  
Even with all this technology  
The closer that we get the farther that we seem  
Technology

Walkin down a darkened road  
I find this world is strange  
Unlike where we grew up  
Crafty clones that have no name  
Looking to loan you love  
And nobody gives a fuck  
And now theyve missed me so  
I got a million bytes at home  
I find another way to gain a little human soul  
I'm so high my my  
I gotta keep my downloading down low  
I thought that you were here but I fear its on the mode  
This distance is existance my missions up in smoke  
I'm tryin to find a way out before the walls all implode  
So

Even with all this technology  
My friends still find it hard to talk to me  
I'm out of reach  
Even with all this technology  
The closer that we get the farther that we seem  
Technology

USB you and me  
Gotta reconnect so desperately  
I left a long time ago  
Though never left you physically  
I'm on auto pilot  
Think I'm here I doubt it  
Try to scream and shout it  
But its distorted  
Can't afford it  
Too much to lose  
We all play the fool  
Every now and then we all are tool  
Swim in a ces pool  
With my fam in a roman rule  
No school ghetto geek sheek  
Movie of the week picture seems bleak  
Try to call but I'm hard to reach  
Isolated constantly fuckin faded  
Debated wether or not  
I would blow or I would rot  
Just robot outdated out  
2.5 kids brand new co op  
I'm reachin out  
Lookin out till its figured out  
Won't talk out its useless  
These boys done shut the highway down  
And next is touch

Don't take much  
One more pill then I'm almost stunned  
Red ones blue ones its fun  
O.d'ed watchin re runs  
Some of my parts  
Stopped my heart cause I ain't that smart  
I got lost just like the rest  
I digitized and lost access

Even though I sleep without ya  
I can see you in my dreams  
They say that were so connected  
But I can't even hear you scream  
Even though I sleep without ya  
I still see you in my dreams  
They say that were so protected  
But weve been locked up by machines  
I need a way to break down  
Find a place for me to go  
So we can disconnect from this whole evil show  
This rock is an outlet  
Which we drown in each light of day  
And if you find me in a place where I can lie out in the snow  
Than id be lying if I told you that I didn't wanna grow  
Let's finally sink our shoes inside the soil  
And pray to jobs that we can stay

Even with all this technology  
My friends still find it hard to talk to me  
I'm out of reach  
Even with all this technology  
The closer that we get the farther that we seem  
Technology
