

## Tunnel Vision

iMayday!

I met a girl from outer space  
She never quite understood me  
Well the earth girls are just the same  
They're always making up what could be  
I think that I confused her  
She couldn't comprehend my logic  
Well I'm only living for today  
So stop thinking every step is a plot twist

You see  
Only what you wanna see  
And so I'll be  
Whoever I wanna be

I met a girl from underwater  
She couldn't swim to understand  
How I live in such disorder  
Puzzled by the land of man  
I think she thinks I'll leave here  
To go swim free, way down low  
But understand I can't breathe where you are  
And I just want you to know

You see  
Only what you wanna see  
And so I'll be  
Whoever I wanna be  
We see  
Only what we want to see  
And I see  
Your being just as blind as me  
Your just as blind as me
