

# Upstream

!Mayday!

Now, I've got so much life left to live  
But they never gonna cuff my wrist  
I exist but Not like this  
Gimme space and bit of the bass to save face  
Placate to the middle and break it make haste  
This Ain't what it might been take the same pace  
And we mighta been an overnight  
Success story but no more stress for me  
I'mma keep paddling up no matter what get your ladder up and let's get glory  
Why how glorious then again we notorious for penning them cryptic choruses t  
hose underground warriors  
Strange my world has been deranged  
Every obstacle I claim leaves another to remain  
Switch it up and get another one  
Problem problem  
Sending me another and I solve em solve em  
Bread and butter lovers get a calling calling  
Chase that dream do it often often  
Ok, let me know the reason and I'm down to ride  
Ok, never been a season that I stayed inside  
Ok, I'm ready for the pride I'll be diving blind  
Turn the tides enjoy the ride even when you feel the hurt inside

Swimming up swimming up they got me swimming upstream  
Swimming up swimming up they got me swimming upstream  
Oh no no  
They got me  
Swimming up swimming up they got me swimming upstream

Stroke stroke stroke

I'm a veteran of war been gone so long I don't feel home no more  
I don't even tend to remember last nights fight I was drunk by the time you  
called  
Work for applause, livin in Oz, different city everytime I hit the alarm  
No days off for the wicked so we hop in a time machine and we gone  
Stealin time, makin mine  
Makin history with every line, They all pissed but I'm feelin fine  
I ain't no pop pills for this ride... Right?  
If you disconnected I'm right there witcha  
Pawn takes knight queen takes bishop  
On a expedition on a endless mission  
All I see's apparitions  
Visions of gods 5 star generals with they charms  
So I'm wiring up all these bombs  
Just to send em out to these blogs  
But I got so much to learn so much to let go  
That's where this road has to come mean more  
Fuck what they think let me sink deep in sleep to count sheep's feet on my l  
awn  
Ain't gone pace myself again, ain't gone race all these rats  
Ain't gone lose myself in this, I'm in a strangers land  
Everynight we double fist incase it all collapse  
I think I'm swimming with sharks betta watch my back

Swimming up swimming up they got me swimming upstream  
Swimming up swimming up they got me swimming upstream

Oh no no  
They got me  
Swimming up swimming up they got me swimming upstream

Stroke stroke stroke
