

Fool

Mayer Hawthorne

Said you won't be back.
I didn't react, I was lazy.
Thinkin I was cool, drivin round school,
tryin to be a man, boy I was crazy.

I hate to be alone, you're a part of me.
How many years ago did you die for me?
I was a fool back in highschool.
I was a fool before I met you.

Smoking after class,
they don't need to ask if I was listening. Listen.
And there's hell to pay,
when everybody's comin late.

I hate to be alone, you're a part of me.
How many years ago did you die for me?
I was a fool back in highschool.
I was a fool before I met you.

I keep on knocking at your door.
I keep on coming back for more.
I keep on knocking at your door.
I keep on coming back.

I was a fool back in highschool
(I can't believe the things I did before).
I was a fool before I met you (people knockin at the door).
I was a fool back in highschool (I was such a fool).
I was a fool before I met you. I was a fool back in highschool.
