

Out of Pocket

Mayer Hawthorne

You're out of pocket now
You're real out of pocket right now...

Honey
Comes from honey bees
Maple syrup comes from maple trees
But nothing in this world
None of these
Are as sweet as you

But what I'm seeing
Can't believe my eyes
And what I hearing
Can't believe my ears
I never
In all my years
Thought you could ever take it here

You're out of pocket now
You're real out of pocket right now

Sophisticated
Like you ought to be
But slightly medicated when you want to be
The only thing I'm thankin'
When you're next to me
Is that I want you
Yeah I want you

But what I'm seeing
Can't believe my eyes
And what I hearing
Can't believe my ears
I never
In all my years
Thought you could ever take it here

You're out of pocket now
You're real out of pocket right now

Dial it on back babe
Get yourself right
Dial it on back babe
Don't be too up tight
