

Everlasting Dying Flame

Mayhem

Deep within me a spark of life
Everlasting flame
My blackened heart feeds within

Like a cancer growing stronger
No way around

Sick soul slain

The soul turned to ash
Sliced veins
Blood on ice
Brings Life to life
That my life can rot away with
Dismal life
Life fades away
Dying flame

Deep within me a fading light
Luciferian flame
My mortified soul burns within

Dirge dark death

Everlasting dying flame

Lightbringer archon
Lord of black flames
Opening the abyss
Order to descend

Dreaming wretched state
Walking among dark spirits
In a labyrinth submerged
I see myself dead
Woeful
