

Save Me

Maylene and the Sons of Disaster

Into the night, burning so bright
No one is safe, no one is safe
Into the fire, feeling the high
Well no one is safe
You're all the same

Save me
Something inside of me is changing
I feel, I feel it, taking
A part of me is slowly fading
The voice says, "found me another one"

Am I alone tonight?
I hear a voice inside
It's praying on my mind
The fear has spoken
Into the night, burning so bright
No one is safe, no one is safe
Into the fire, feeling the high
Well no one is safe
You're all the same

Save me
Something inside of me is changing
I feel, I feel it taking
A part of me is slowly fading
The voice says,
"Found me another one, found me another one"

It's running through my veins
There's no saving me
Can't hide to survive
The curse is coiling
Into the night, burning so bright
No one is safe, no one is safe
Into the fire, feeling the high
Well no one is safe
You're all the same

Save me
Something inside of me is changing
I feel, I feel it, taking
A part of me is slowly fading
The voice says "found me another one"
