

Autodeadma

Maymay Entrata

Checking my social, gusto ko lang love makita
Censor lang ang mga nega, autodeadma, no problema
Mga galaw inaabangan, lalo ko lang gagalingan
'Di kailangan nang patulan, pansinin, hindi kailangan

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

Laman-laman ng mga chika
I'm not gwapa sabi nila
Walang talab ganyang intriga
Sarili ko'y aking kilala
Mga galaw inaabangan, lalo ko lang gagalingan
'Di kailangan nang patulan, pansinin, hindi kailangan

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

Lalo pang umangat
Go pull me down, I'll rise up
Sa sarili'y magtiwala
No need for validations
Guard myself with your love
That's gonna make me stronger
And be the brightest flame
In the end

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

I just want na laging happy
Autodeadma para happy, deadma
