

AUTODEADMA

Maymay Entrata

Checking my social, gusto ko lang love makita
Censor lang ang mga nega, autodeadma, no problema
Mga galaw inaabangan, lalo ko lang gagalingan
'Di kailangan nang patulan, pansinin, hindi kailangan

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

Laman-laman ng mga chika
I'm not gwapa sabi nila
Walang talab ganyang intriga
Sarili ko'y aking kilala
Mga galaw inaabangan, lalo ko lang gagalingan
'Di kailangan nang patulan, pansinin, hindi kailangan

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

Lalo pang umangat
Go pull me down, I'll rise up (I'll rise up)
Sa sarili'y magtiwala
No need for validations (No need)
Guard myself with your love
That's gonna make me stronger (Stronger)
And be the brightest flame
In the end

Maymay, how are you so solid?
Aemaehan haengdonggwa maldeullo mental teollin jeogi itjiman
Social media's so lonely
But look, we came back ballin'
Autodeadma, I'm not a dead man
Urin jeongsangeul hyanghae gaji like Neymar
Ganeun mari gowayaji oneun mari deo gopji
That might be karma

I'm setting my own expectations
I run fast, I won't bother kaya ngayon

Autodeadma, mga issues not my business
Autodeadma, I just want us to be happy
Autodeadma, lies will never get to me
Basta't aking mahal kasama
All those hate won't bother me, deadma

I just want na laging happy
Autodeadma para happy, deadma
