Get close

I know you thought
That I would come and break your heart
No not today
No not today
And I know that you thought that
I would come and add to your scars
No not today
No not today

You need a good hugging (Sade)
Good sex and good loving (Sade)
Someone you can trust in (Sade)
Don't bout nothing (Sade)
I know you struggling but love is so hard
No not today

Over heater over heater
Over heater over heater

Girl on fire traumatize creature
Love and protect you like my sister
Mona Lisa

Speak of you highly and love you deeper open your doors
Run you a hot bath open your pores
Grapes and top wine open your drawers
I'm nothing like them other niggas from before
I'm fighting the stereotype I'm going to war
Let's go mia elope on the shore
Mrs Me
Them legs are gold I'm mister Tee
Keep them around my neck til I forget to breathe
Breathe
Breathe

I just want to listen to ya
Tell me all of the things you want
Tell me all of things you need
Just sit back and listen to ya
Hold you close
While I hear you out
Were so close I can hear you breathe
Cuz nothing will matter cuz nothing's the same
Cuz when you're with me, let your past be your pain
And I won't neglect you or repeat the pain
The pain
The pain

I know you thought
That I would come and break your heart
No not today
No not today
And I know that you thought that
I would come and add to your scars
No not today
No not today
