Be There

Maysa

Be there, be there
Be there, be there
Be there, be there

Day or night
I will always be around
If you're happy or you're sad
Hey, if you're up or down

I'm a woman of my word
'Cus baby I'm true
I will be there when you call
'Cus I'm forever here for you

Be there, be there
I'mma be there
When everything goes wrong
I will be there, be there
Keep you so strong
This is what I do
'Cus this is what I do
Ah baby
I will be there
I'm so in love with you

With you, with you
I'm so in love with you

Look baby I'm your friend
I will love you til the end
Even when you do those things
That I can't comprehend

I've been here from the start
And I'll still be around
With those fences goes the chains
And finally break your heart

Be there, be there
I'mma be there
When everything goes wrong
I will be there, be there
Keep you so strong
'Cus this is what I do
I will be there
I'm so in love with you

Be there, be there
Be there, be there

I've been right here with my looking glass
While you searched this world for the greener grass
When you get tired run in here and beg
I know just what you do
You'll come home true

Come home to me baby

Come home for your true blue
I know you will

I am forever your girl
Your I don't fly girl
Early in the morning
Late in the evening

Be there, be there
I'mma be there
When everything goes wrong
I will be there, be there
Keep you so strong
'Cus this is what I do
I will be there
I'm so in love with you

Winter, spring, summer or fall
Alright baby
I will be there when you call
I'm so in love with you

Winter, spring, summer or fall
I will be there when you call
