

Blue Horizon

Maysa

Finally, we are here
On this moonlit island
Here in your arms
Is where I wanna be

Feels like I'm flying
On a natural high
Inhibitions are leaving me
Are leaving me, are leaving me, ooh

Can you take me there?
Please take me there
Where the ocean meets the sky
Blue horizon

Now at this place of my highest passion
My heart races, I love the way you're loving me
Getting lost in your eyes
Nothing can free me better

You're loving me babe
You're loving me, yeah
Oh, where the ocean meets the sky

Ooh, can you take me there
I love the way you're loving me
The way you're loving me, loving me
Ooh, I love you

Can you take me there?
I'm almost there
Oh, the ocean
