

## Rain Drops

**Maysa**

I feel alright  
As long as the sun is bright  
Soon as the clouds come rolling by  
Big tears form in my eyes  
Can't explain  
How I feel when the sky is grey  
I sit alone and I just pray  
For a sunny day  
Rain drops keep falling down  
Your voice keeps calling me  
Such a familiar sound  
Those rainy nights keep haunting me  
You're still on my mind  
Even after all this time  
I've tried to stay away  
Move on to a brand new day  
It's such a shame  
You really couldn't make up your mind  
I couldn't wait another day  
For your love
