

Dee's Song

Maze

I should of been around when you call on me
I should have felt the need in you
My eyes to blind to see
Now that you won't be with me no more
Time for me to let it go but all I know

I can't get you out of my mind
I think of you all the time
I can't get you out of my mind
I think of you all the time

I wish that I could make it up to you
I wish that I could have you back
I tell you what I'd do
I would give you all the love I've got
Think about you day and night well that's alright

I can't get you out of my mind
I think of you all the time
I can't get you out of my mind
I think of you all the time

Sweeter then a cherry sweet
The kind that you would like to meet
I was such a lucky guy
Sometimes I wonder why
Why I said goodbye

I should of been around when you call on me
I should have felt the need in you
My eyes to blind to see
Now that you won't be with me no more
Time for me to let it go but all I know

I can't get you out of my mind
I think of you all the time
I can't get you out of my mind
I think of you all the time
