

## another life

mazie

Static on my TV  
You've been tryin' to find me for a week  
Funny, so have I  
When I look out the window  
Where did all the people go?  
Oh, yeah, I left 'em back on the pavement

I used to think that space was all I need  
'Til a black hole sucked up my whole family

Ah  
It's too late now for a change of mind  
Ah  
Maybe I'll come 'round in another life (In another life)

In another life (In another life)  
(In another) In another

For my own entertainment  
I'm burnin' bridges like styrofoam  
'Cause I'm done takin' the high road  
Then I made my escape  
Through a hole in the ozone  
Oh no, I, I might be the problem

I used to think that space was all I need  
'Til a black hole sucked up my whole family

Ah  
It's too late now for a change of mind (Too late now)  
Ah  
Maybe I'll come 'round in another life

In another life (In another life)  
(In another) In another
