

# Everywhere

MC Chris

Warm it up Chris, I was thinkin' about it  
Put on my oven mitts and the kitchen gets crowded  
Girls they wanna taste of my latest concoction  
Now let me see you put your hands up for adoption

It's like everywhere I go, everywhere I be  
Everybody askin' me are you mc  
I like the episode where you did that thing  
Would you sign a dvd for my sister please  
Would you do a voice mail I can't work my phone  
Would you make out with my girl she's on your bone  
Sometimes I get bummed like I don't wanna live  
Then I listen to some mc chris

When I walk into the club I'm like Moses  
The crowd parts all the tarts start posin'  
Dj plays my jam and the floor gets packed  
Girls wearin' dental floss up in they ass crack  
mc chris in the place in this case a disco  
Can I hang my homie hoodie on your hip bone  
Watch me weave through the bitties both skinny and big boned  
Find a little lady let me get my dick on  
Billy has ditched should have lisps?  
Made me wish we should have had some kids  
Yo this hotties body's got me never mind the naughty bits  
Grab my shit and split hear them cats are lockin' lips  
Like an apocalypse when she give my cock a kiss  
He's watching me jump out? cuz that shit be gross  
Then I hit it behind the dumpster next to charlie o's  
Shorty says she likes my style says she likes my tune  
Exactly why wasn't I on Danger Doom?

It's like everywhere I go, everywhere I be  
Everybody askin' me are you mc  
I like the episode where you did that thing  
Would you sign a dvd for my sister please  
Would you do a voice mail I can't work my phone  
Would you make out with my girl she's on your bone  
Sometimes I get bummed like I don't wanna live  
Then I listen to some mc chris

Some girls they say that I am dope  
They ask me who I know unquote  
Some girls they like me I don't know  
Sometimes I'm just a stepping stone  
On a plane to LA 40 thousand feet up  
Girl figures it out and the girl goes nuts  
She's in the seat next to mine so I try to make nice  
You can tell she wants a bite like her head on a slice  
An attractive little package she like sign my boobs  
I post on your message board but I'm just a noob  
Wear my homemade mc panties, shave your name in my pubes  
I say that's a little much but what's a guy gonna do  
We head to the bathroom it ain't occupied  
We start our own little club up in the sky  
She's a pro yeah you know she do me right  
That's when she ask me if I'm a mooninite

It's like everywhere I go, everywhere I be  
Everybody askin' me are you mc  
I like the episode where you did that thing  
Would you sign a dvd for my sister please  
Would you do a voice mail I can't work my phone  
Would you make out with my girl she's on your bone
