

Han Solo

MC Chris

Off to Mos Eisley, wookie by my side
The speed that I ride is light, can't deny
I'm Solo, I'm Han Solo
I'm Han Solo, I'm Han Solo (Solo)

Black vest pressed, and my white collar popped
I'm off to the cantina, blue milk on the rocks
Had to be Tatooine, where they don't serve droids
We're chilling with some villains cause we're currently unemployed
No more kitchens rescue missions, we barter charter flights
It's no trouble cause we smuggle if we find the price is right
And on this particular night me and my wookie's playing hookey
Want to see the Modal Nodes, maybe score Tonnika nookie
See I'm seeking out a sweetheart on the run from my last one
She was talking matrimony, me and my homey pulled a fast one
Rather chill with Swilla Corey, that blonde with the crimps
Lemme pimp for a minute before I cash in my chips
When you see the t-head then you know that it's on
Modal Nodes know the lo so they're playin my song
I might be a space jockey not a grody Neimoidian
Just a sharp shooting shadow always avoiding a Rodian

Off to Mos Eisley, wookie by my side
The speed that I ride is light, I can't be denied
I'm Solo, Han Solo
I'm Han Solo, I'm Han Solo (Solo)
Hey there mister, you don't get the picture
I'll do a fake out, make out with your sister
I'm Solo, I'm Han Solo
I'm Han Solo, I'm Han Solo (Solo)

Doctor's starting drama, Ponda Baba trolling hicks
I just wanna flirt with chicks, but this kid is starting shit
Now somebody lost a limb and my thumbs on the safety
I just came to party, I hope nobody plays me
I like a speak easy where you don't need a password
I'm a pilot and a pirate but I don't have a patch, weird
Weapons ain't no match for DL-44 blasters
Obnoxious spocks get shot by Chewbacca's bowcaster
I'm my own master no jet set to join
The Empire and Rebels are still on the same coin
No enemies just heavenly bods, and don't tell me the odds
This guy to girl ratio is getting me hot
Yeah I know I got debts to pay, but that can wait
I'm gonna rock let Jabba jock my docking bay
No lame ricochet gonna ruin my day
Now back to the podrace with your bitch fish face

I'm Solo, Han Solo
I'm Han Solo, I'm Han Solo (Solo)

Solo, Solo, yeah
It's like S-O-L-O
S-O-L-O

Made the Kessel run in 12 parsecs
