

Help the Children

MC Hammer

Help The Children
MC Hammer
Help The Children

Help 'em
Help our children
Help 'em
Help our children

Will you let them be
Will you help our children live to see
Our generation is trying
Oh how we're dying
Will you let them be
Will you help our children live to see
A better day is coming
To keep our lives going

Right is here and then it's gone
And what seems right can be oh so wrong
Let's protest and not molest
Our young girls
And help them live to see this world
Clearly
As it is
And pray for the mother with kids
Who's lost control, but not her soul
Many kids will die before they're
20-years-old

Will you let them be
Will you help our children live to see
Our generation is trying
Oh how we're dying
Will you let them be
Will you help our children live to see
A better day is coming
To keep our lives going

Papas, where have you gone
I see mama by the telephone
Waiting, but you don't call
Tears on the fears
And I see them fall
It hurts, but we'll go on
You're just another brother who's left his home
And family
Yeah we cry
Mama said she loved you
And I don't even know why

Will you let them be
Will you help our children live to see
Our generation is trying
Oh how we're dying
Will you let them be
Will you help our children live to see

A better day is coming
To keep our lives going

Money and death
The line the truth
A dime bag of crack
The end of you
Black and white
A constant fight
Years and years
And day and night
Or was it right
I've got to stand
To make a better way
For a young black man
And a land
Where the people smile
You've been holding me back
For such a long while

Will you let them be
Will you help our children live to see
Our generation is trying
Oh how we're dying
Will you let them be
Will you help our children live to see
A better day is coming
To keep our lives going

Children
Don't be fooled
And learn about the way
The men once ruled this country
Where we live
And read about the 60s
And what they did
So that we
Won't forget
And love one another
And give respect
When I see
A man who's old
A woman who's great
Touches my soul
Cause I know
They paved the way
So we can be here
And live this way
There was a time
Not long ago
When in front of the bus to the back I had to go
It appears
That things have changed
Maybe it's a different method but it's still the same game

Will you let them be
Will you help our children live to see
Our generation is trying
Oh how we're dying
Will you let them be
Will you help our children live to see
A better day is coming
To keep our lives going

...

Ajude as crianças
com letra de MC Hammer

(traduzida por, divane duarte)

Ajude-os
Ajudar os nossos filhos
Ajude-os
Ajudar os nossos filhos

Vai deixá-los ser
Irá ajudar os nossos filhos viver para ver
A nossa geração está tentando
Oh como estamos morrerem
Vai deixá-los ser
Irá ajudar os nossos filhos viver para ver
Um dia é melhor vir
Para manter as nossas vidas indo

Certo é aqui e, em seguida, ela foi embora
E o que parece certo pode ser oh tão errado
Vamos protestar e não incomodar
Nossos jovens raparigas
E ajudá-los a viver para ver este mundo
Claramente
Como se trata de
E rezar para a mãe com as crianças
Quem é que perdeu o controlo, mas não a alma dela
Muitas crianças vão morrer antes que elas sejam
20-anos de idade

Vai deixá-los ser
Irá ajudar os nossos filhos viver para ver
A nossa geração está tentando
Oh como estamos morrerem
Vai deixá-los ser
Irá ajudar os nossos filhos viver para ver
Um dia é melhor vir
Para manter as nossas vidas indo

Papais, onde você tem ido
Vejo mãe pelo telefone
í
