

Sultry Funk

MC Hammer

That sultry funk
That's the type of funk I want
VMF and the Hammer with that sultry funk (sultry funk)

Since "we like the funk"
Always come with the flows you can't touch, known to get the crowd pumped (Right)
And I'm tight, sharp as a dagger dropping bombs on the fools climbing charts
like a ladder
And they just can't understand, when they see me flow, wanna be me
Know what I was raised up from (I'm from the ESO)
Tracks I always shine like a medallion (So When I start to flow)
I ride the beat like a stallion
Gots to be the man getting twenty bucks a head
Full arena, with fifty million dizzles and a big ol' Benz
I'm on a hitlist ('bout to blow up)
Suckas said I showed up, can I get a witness? (Sho' nuff)
You see the funk is just in me, that's why they talking bad
I got the style that make them jealous, starts envy
They never made me none, now everybody sayin' (Where'd you get your funk from?)

Hip-hop to a new level with riddles in every song
