

# Honey

MC Lars

Look, my bees are all bad, this honey all real  
They make it real quick from the hive, I steal  
Got tiny wings, but they don't stay still  
With big black stripes, just like Garfield  
Cold queen bee, she gives drones chills  
A hive full of rage and they're ready to kill  
Sitting on the throne they all do her will  
Honey in the hive, that's meals on wheels (woo!)

I like bees the best  
Even more than Beck  
I like pourin' it, all up on my eggs  
But nothing in this world
