

## Make a Friend on 27th Street

MC Lars

I draw this comic and I honestly promise  
I never thought my characters would come alive I was  
astonished  
when they first started talking well I thought I was  
insane yo  
It was not a game no, they came out the frame so quick  
That's when I tried to run from  
Truman the Human cause he was having too much fun  
All naked in my face in the yard chewing gum  
Jumped out the panel, modern day Robert Crumb  
Ducked down the alley, it was MC Chaucer  
Chilling with Ophelia, I thought I lost her  
My car wouldn't start I'm like "What is this?"  
Francis the Monkey had put my keys up in the fridge  
Saw a, jungle cat in the dorm room, needed more room  
Fish Boy laying eggs - they were warm dude!  
Computer Science Bear was not about  
world kindness, I'm just trying to get out!

Make a friend on 27th Street  
(You can always make a friend, you can always make a  
friend)  
(You can always) make a friend on 27th Street  
(You can always make a friend, you can always make a  
friend)  
(You can always)

This place that I come from called 27th Street  
isn't where you want to be at all  
There's a rat named Harold and he's always getting  
naked  
Stealing juice from the shopping mall  
Baby Jerry's eating Skittles in his bowl  
with the Frosted Flakes talking trash to his mom  
Take a look cause it seems  
the American dream on the street's gone wrong this song  
is about a place you don't want to go know  
Old Man Wormsley is crawling real slow  
And what about Toad? Well it's awkward yo  
Luigi's so impatient he can't wait for him to go  
Got pancreatic cancer - God damn!  
At the funeral he's making love to another man  
Diagnosed by an animal hater named Dr. Felix  
Tossing puppies and kittens out of his '97 Buick  
On 27th Street, please please help me  
Cause the toons that I drew well the evil I can see  
So I grabed the erase, no lie  
You scary cartoon characters you're all going to die  
Why you gotta be up in my grill? (What?)  
Why you gotta make me wanna kill? (Word)  
Who needs enemies when you got friends like these  
Well at least I can draw a new scene like "Peace!"

Always make a friend, you can always make a friennnd!!!  
You can always make a friend who will be there 'til the  
end  
On 27th Street, where on 27th Street, there on 27th
