MC Lars

Hey I'm MC Lars, a wholesome kid  
So popular I messed with the Olsen twins  
Toured my ass off programming my laptop  
Comic book rich wearing Simpson's ascots  
Ask not if I'm dope cause I am you should know  
Selling out shows with my old school flow  
From Stockholm to Raven to iGeneration  
ICP and Public Enemy my inspiration  
Oh aight, rock an A's cap daily  
Hot fangirls all calling me baby  
Wanna have Lars Horris in their backseat Taurus  
Cause my space game's bigger than Tyrannosaurus  
But you know that I ain't got time, I've been on my grind since  
1999  
DIY and I'm living like a rock star, can't get hyphy but I ghos  
t ride cop cars

Well my name is K.Flay and I come from Illinois  
And when I rock the mic well I get all the boys  
I'm five foot seven I play by my own rules  
I'm so smart that Harvard was my safety school  
I'm a very good person, my pancakes are amazing  
I'm building up my game to make this industry my plaything  
I really like Muse and I dig Liz Phair  
I'm down with Zion I, I have dyed brown hair  
Yo SF living double majored in Psychology  
Slash Sociology don't ask for an apology  
When I'm like "GIRL POWER!" and you're like "Whatever!"  
I rock ProTools, Logic, Reason, because I'm very clever  
Ableton? Please! That's my steez,  
I can easily pull ten awesome beats out my sleeve  
I flow better than Lars, but don't tell him that!  
On "This Gigantic Robot Kills" I ghostwrote half the tracks
