

## Til The Day I Die

MC Lars

There was a great storm, in the once silent forest  
A leaf broke free, and I could not ignore it  
A Spirit Guardian, a shining light  
I raised you as my own, finding fruit day and night  
That's when the Spirit Tree called, we ran to the cave  
The food began to rot 'cause it couldn't be saved  
My last orange, I would gladly give to you  
My last breath, Ori, you can have it too

And I will love you 'till the day I die  
Till I die, till I die, I would gladly give my life  
For you to walk again safe through the Blind Forest  
Good night, my little Ori, I'll see you soon, I promise

And when I took my final breath  
You didn't get it, how my spirit, it just left  
You saw the light from the tree so you ran  
Your faith began to fade, lost, that was not the plan  
Revived by the tree, warmth, wind and water  
That's when Kuro stole the orb to project her only daughter  
Saved by Gumo, he brought me back to life  
I promised I would see you, everything would work out fine

And I will love you 'till the day I die  
Till I die, till I die, I would gladly give my life  
For you to walk again safe through the Blind Forest  
Good night, my little Ori, I'll see you soon, I promise
