MC MAGIC

Father in the Heavens can I thank you for your love, Father

Father (father, father, father)

When you came into my life (when you came into my life)

You turned my world upside down (you turned my world around)

You made me feel so right (you make me feel so right)

No words can express what you've done for me

How you hung up on the cross and shed your blood for me

And no one could tell me Father you ain't real

'Cause you're the only one that ever answered my appeal

And let me out of the sentence of death

That's why I'll praise you Lord till my last breath

I own my life to you 'cause you gave me everything

And I'll serve you with my strength and bow before my King

Father (father, father, father)

When you came into my life (when you came into my life)

You turned my world upside down (you turned my world around)

You made me feel so right (you make me feel so right)

You make me feel so right, Jesus

Now, you never heard the Magic Man break down like this

To let the Lord know how much I appreciate the things he did

Ever since I was young he held my hand and held me right

Guided me through all the good things in life

You know that's right, so I

Get down on my knees today and say it would be every d

Lord, muchos gracias for being there for me

The longest day, the darkest nights, no matter what happen in my life

I felt that you was always in my heart and on my side

Father (father, father, father)

When you came into my life (when you came into my life)

You turned my world upside down (you turned my world around)

You made me feel so right (you make me feel so right)

I just wanna say thank you my lord

For dying on the cross and saving my soul

Everything I do is not enough

I'm a sinner and you are the one that deserves my praise

My lord, my dedications are for you

Jesus, Jesus, thank you

Father (father, father, father)

When you came into my life (when you came into my life)

You turned my world upside down (you turned my world around)

You made me feel so right (you make me feel so right)

I just wanna say thank you my lord

For dying on the cross and saving my soul

Everything I do is not enough
