

# Missing You

MC MAGIC

Ooooh ahhhh  
Ooooh ooooh  
I told myself be strong  
I cried a million tears  
It wasn't meant to be  
It's almost be a year  
So what's a girl to do  
I find myself missing you  
Oh boy I'm missing you

If I one more night  
To look into your eyes  
Come back into your world  
And love you one more time  
Remember what they said  
That we just wouldn't last  
But we didn't pay attention  
And went behind their back  
And I remember summer night  
With you by my side  
And nothing else would matter  
As long as I saw your smile  
Tell me where we went wrong  
And how can I repair  
The damage that I did  
Could you ever take me back

I told myself be strong  
I cried a million tears  
It wasn't meant to be  
It's almost be a year  
So what's a girl to do  
I find myself missing you  
Ohhhh what's a girl to do  
Ooooh boy I'm missing you  
Ooooh  
Oh I'm missing you, yaaaa  
Going crazy over you

I know that I was wrong  
And girl I've realize  
And if I had you next to me  
I'll never leave your side  
I know it's not the same  
The memories in your mind  
But don't you let em stop you girl  
And give us one more try  
And I remember summer night  
With you by my side  
Cause nothing else would matter  
When I saw your smile  
Tell me where we went wrong  
And how can I repair  
The damage I did  
Could you ever take me back

Oh I miss you

Oh I need you  
Oh I love you  
Oh I want you  
Ooooooooooh  
Oh I need you booooooooooy  
Oh boy I'm missing you  
Oooh  
Oh I'm missing you  
Oh I need you booooy  
Oh I need you back
