

Nobody Knows

MC MAGIC

In the beginning we were lost in love
In the begging everything was so perfect
It was just you and me
But you threw us all away
Why? Why did you do it

In the beginning we were lost in love
Think about it I was oh so young
Wouldn't listen to anyone
Really thought you were the one

How many times are you gonna tell me never again
I can't take this pain no more
I'm broken on this bathroom floor

Mi pobre corazon no quiere perdonarte
No no no
Después de darte todo tu me lastimaste
Tu me lastimaste
Aqui en el hospital es donde me mandaste
Mi corazón
Lo unico que quiero es olvidarte

In the beginning we were lost in love
Think about it I was oh so young
(Everything was so perfect)
Wouldn't listen to anyone
Really thought you were the one

Can you look into my eye
And let me give it one more try
I wanna prove to everybody that I lost my mind
Did I lose you girl forever
Have I made the big mistake?
I promise I never meant to turn this love to hate

It's something I'll regret until my very last day
'Cause I dreamt that one day we would share a last name
I guess I don't deserve you, I guess it's time to go
Acuerdate you'll always live inside my corazon

Nobody knows, nobody knows, nobody knows
How you broke my soul
Nobody knows, nobody knows, nobody knows
How you hurt me so

In the beginning we were lost in love
Think about it I was oh so young
Wouldn't listen to anyone
Really thought you were the one

Nobody knows, nobody knows, nobody knows
How you broke my soul
Nobody knows, nobody knows, nobody knows
How you hurt me so
