MC MAGIC

[Cuco:]

I could search this whole world (world)  
Never find another girl (girl)  
That's gonna make me (make me)  
Feel the way that you do (the way you do, girl)

I could search this whole world (whole world)  
Never find another girl (girl)  
That's gonna make me (make me)  
Feel the way that you do (the way you do, girl)

[MC Magic:]

Mamacita with that sparkle in your eyes (yeah)  
I need you by my side (I need you, baby)  
No matter what they tell you  
I got to make you mine  
Girl I wanna hold you by the hand  
Take you places where you wanna go  
Todo los dias  
Robarte el corazon  
I love it when you tell the world that we belong together  
Love songs and dedications Art Laboe forever  
Keep your head up  
And always on your mind  
Whenever you need somebody to love you let me hold you right  
We was meant to be together you and I  
My angel from the heavens like a gift from the sky

[Lil Rob:]

Hey baby  
I love you to the moon and back  
You got me back on track  
'Cause you got  
Everything to do with that  
Fact  
Looking back in retrospect  
To the night that we first met  
A moment that I don't regret  
I won't forget  
That's when your eyes locked with mine  
That's when your soul talked to mine  
A love so rare and hard to find  
I wouldn't find it nowhere else  
See I could waste my time and search this whole world for that girl but ther  
e's no one else  
Solo tengo ojos para ti

Y tu eres perfecta para mi  
Nadie me hace sentir como tu  
No one can make me feel the way you do  
Solo tu

[Cuco:]

No me digas que esta noche no te pueda amar  
No me digas que esta noche no te pueda amar, amar amar amar  
Para siempre (para siempre)

No me digas que esta noche no nos va durar  
No me digas que esta noche no nos va durar, durar durar durar  
Para siempre (para siempre)
